Comments on Statement of Reasons for Allowance

Dear Sir

Applicants acknowledge the allowance of claims in the subject application by the

Examiner with appreciation. The Applicants agree with the Examiner's Statement of Reasons

for Allowance to the extent that the claims of the present invention are patentable over the references in the record. The Applicants expressly traverse the Examiner's Statement of

Reasons for Allowance to the extent that any comment is intended or has the effect of limiting a

claim scope, explicitly or implicitly, by not reciting verbatim the respective claim language, or is intended or has the effect of limiting a claim scope by stating or implying that all the reasons

for patentability are in any way fully enumerated.

To the extent that the Examiner's Statement of Reasons for Allowance may reiterate the

Examiner's arguments made during prosecution, Applicants respectfully submit that by virtue of the Examiner's allowance of the claims over the cited references and the associated

arguments, it is believed that the previous arguments made by the Examiner have been

overcome. Additionally, Applicants specifically do not acquiesce or agree in any manner as to the comments made by the Examiner regarding what the prior does or does not teach. Indeed,

Applicants have pointed out the errors in the comments/arguments in Applicants' Response to the Office Action(s).

The Applicants further point out that the reasons for allowance set forth by the Examiner are not the only reasons that the claims are allowable. Further reasons for allowance

of the claims beyond those enumerated by the Examiner are described and set forth in the Applicants' specification. In addition, structures and methods that perform substantially the same function in substantially the same way to achieve substantially the same results are included within the scope of the claims.

Finally, as the Examiner's reasons for allowance are not exhaustive, such reasons for allowance do not establish an estoppel against Applicants seeking and obtaining allowance of additional, broader claims in a continuation application, which Applicants reserve the right to file.

Respectfully submitted,
Microsoft Corporation
